

5096.820. (a) The sum of four billion ninety million dollars (\$4,090,000,000) shall be available, upon appropriation therefor, for disaster preparedness and flood prevention projects pursuant to this article.

(b) In expending funds pursuant to this article, the Governor shall do all of the following:

(1) Secure the maximum feasible amounts of federal and local matching funds to fund disaster preparedness and flood prevention projects in order to ensure prudent and cost-effective use of these funds to the extent that this does not prohibit timely implementation of this article.

(2) Prioritize project selection and project design to achieve maximum public benefits from the use of these funds.

(3) In connection with the submission of the annual Governor's Budget, submit an annual Bond Expenditure Disaster Preparedness and Flood Prevention Plan that describes in detail the proposed expenditures of bond funds, the amount of federal appropriations and local funding obtained to fund disaster preparedness and flood prevention projects to match those expenditures, and an investment strategy to meet long-term flood protection needs and minimize state taxpayer liabilities from flooding.

5096.821. Three billion dollars (\$3,000,000,000) shall be available, upon appropriation to the department, for the following purposes:

(a) The evaluation, repair, rehabilitation, reconstruction, or replacement of levees, weirs, bypasses, and facilities of the State Plan of Flood Control by all of the following actions:

(1) Repairing erosion sites and removing sediment from channels or bypasses.

(2) Evaluating and repairing levees and any other facilities of the State Plan of Flood Control.

(3) Implementing mitigation measures for a project undertaken pursuant to this subdivision. The department may fund participation in a natural community conservation plan pursuant to Chapter 10 (commencing with Section 2800) of Division 3 of the Fish and Game **Code** to facilitate projects authorized by this subdivision.

(b) Improving or adding facilities to the State Plan of Flood Control to increase levels of flood prevention for urban areas, including all related costs for mitigation and infrastructure relocation. Funds made available by this subdivision may be expended for state financial participation in federal and state authorized flood control projects, feasibility studies and design of federal flood damage reduction and related projects, and reservoir reoperation and groundwater flood storage projects. Not more than two hundred million dollars (\$200,000,000) may be expended on a single project, excluding authorized flood control improvements to Folsom Dam.

(c) (1) To reduce the risk of levee failure in the delta.

(2) The funds made available for the purpose specified in paragraph (1) shall be expended for both of the following purposes:

(A) Local assistance under the delta levee maintenance subventions program under Part 9 (commencing with Section 12980) of Division 6 of the Water **Code**, as that part may be amended.

(B) Special flood protection projects under Chapter 2 (commencing with Subdivision 12310) of Part 4.8 of Division 6 of the Water **Code**, as that chapter may be amended.

5096.824. (a) Five hundred million dollars (\$500,000,000) shall be available, upon appropriation to the department, for payment for the state's share of the nonfederal costs, and related costs, of flood control and flood prevention projects authorized under any of the following:

(1) The State Water **Resources** Law of 1945 (Chapter 1 (commencing with Section 12570) and Chapter 2 (commencing with Section 12639) of Part 6 of Division 6 of the Water **Code**).

(2) The Flood Control Law of 1946 (Chapter 3 (commencing with Section 12800) of Part 6 of Division 6 of the Water **Code**).

(3) The California Watershed Protection and Flood Prevention Law (Chapter 4 (commencing with Section 12850) of Part 6 of Division 6 of the Water **Code**).

(b) The costs described in subdivision (a) include costs incurred in connection with either of the following:

(1) The granting of credits or loans to local agencies, as applicable, pursuant to Sections 12585.3, 12585.4 of, subdivision (d) of Section 12585.5 of, and Sections 12866.3 and 12866.4 of, the Water Code.

(2) The implementation of Chapter 3.5 (commencing with Section 12840) of Part 6 of Division 6 of the Water Code.

(c) The funds made available by this section shall be allocated only to projects that are not part of the State Plan of Flood Control.

5096.825. Two hundred ninety million dollars (\$290,000,000) shall be available, upon appropriation, for the protection, creation, and enhancement of flood protection corridors and bypasses through any of the following actions:

(a) Acquiring easements and other interests in real property to protect or enhance flood protection corridors and bypasses while preserving or enhancing the agricultural use of the real property.

(b) Constructing new levees necessary for the establishment of a flood protection corridor or bypass.

(c) Setting back existing flood control levees, and in conjunction with undertaking those setbacks, strengthening or modifying existing levees and weirs.

(d) Relocating or flood proofing structures necessary for the establishment of a flood protection corridor.

(e) Acquiring interests in, or providing incentives for maintaining agricultural uses of, real property that is located in a flood plain that cannot reasonably be made safe from future flooding.

(f) Acquiring easements and other interests in real property to protect or enhance flood protection corridors while preserving or enhancing the wildlife value of the real property.

(g) Flood plain mapping and related activities, including both of the following:

(1) The development of flood hazard maps, including all necessary studies and surveys.

(2) Alluvial fan flood plain mapping.

5096.827. Three hundred million dollars (\$300,000,000) shall be available, upon appropriation to the department, for grants for stormwater flood management projects that meet all of the following requirements:

(a) Have a nonstate cost share of not less than 50 percent.

(b) Are not part of the State Plan of Flood Control.

(c) Are designed to manage stormwater runoff to reduce flood damage and where feasible, provide other benefits, including groundwater recharge, water quality improvement, and ecosystem restoration.

(d) Comply with applicable regional water quality control plans.

(e) Are consistent with any applicable integrated regional water management plan.

5096.828. Funds provided by this article are only available for appropriation until July 1, 2016, and at that time the amount of indebtedness authorized by this chapter shall be reduced by the amount of funds provided by this article that have not been appropriated.
